DETAILED ACTION

1. This application claims priority of the foreign application: Germany 10130882.5 with a filing date 06/27/2001.
2. Amendment of claim 1 and a filed terminal disclaimer in the amendment filed on May 02, 2006, is acknowledged. Claims 1-29 are pending in the application.

Responses to Amendment

3. Since the terminal disclaimer has been approved in the Office, therefore, the rejection of claims 1-29 under obviousness-type double patenting over Langer et al. US 6,156,919 has been overcome in the amendment filed on May 02, 2006.

Reasons for Allowance

4. The following is an examiner's statement of reasons for allowance:

Claims 1-29 are neither anticipated nor rendered obvious over the art of record, and therefore are allowable. This invention relates to process for producing aliphatic oligocarbonate diols. The closest reference is Rivetti et al. US 5,686,644, which discloses procedure for the production of alkyl carbonates. The difference between reference and instant claims is that instant claimed processes are not found in Rivetti et al. A suggestion for modification of above reference to obtain the instant processes has not been found. Claims 1-29 are allowed.

Any comments considered necessary by applicant must be submitted no later
